

Barton Village - Salford

HLP Design - Bullock Construction - City West Housing Trust

Project Information

Type of Building: 5 x 9-storey refurbished apartment block
Glazing System: Windoor System 1000 Light
Quantity: 270 enclosed balconies
Construction: 6 No. full height balcony stacks per block, span from floor to floor, fixed to existing concrete slab and new steel frame roof construction. The Windoor Light system has sliding, folding safety glass in the upper section. Side elements are fixed self-cleaning safety glass. Top floor balconies have additional fixed fanlight glazing for extra height and solar gain. Opal laminated safety glass in the lower section; an external powder coated aluminium safety rail and tensioned stainless steel wire complete the sunspace.

Completion Date: 2014
