Project Information

Type of Building: 2-storey new build accomodation - 2 blocks
Glazing System: Windoor System 1000 Light
Quantity: 8 sunspaces
Construction: The sunspaces are formed in double height stacks which span from ground floor to 1st floor. The ground floor sunspaces feature full height sliding folding opening panels in clear toughened safety glass. The 1st floor sunspaces have a balustrade glazed with a solid panel to match the buildings façade and a glazed opening upper section featuring sliding folding panels.

Completion Date: 2013
