

Ladywell Green – Eccles

HLP Design - City West Housing Trust

Project Information

Type of Building:	3 x 15-storey refurbished apartment blocks
Glazing System:	Windoor System 1000 featuring 'Light' single glazing
Quantity:	252 enclosed balconies
Construction:	All blocks have six stacks of projecting balconies extending from the 1st to 15th floor. Top floor balconies incorporate a solid roof constructed with a single ply membrane. Storey high elements feature a balustrade section internally glazed with opal laminated float safety glass. A sliding folding opening upper section with clear toughened glass folds inwards through 90°. An aluminium tubular handrail and a tensioned stainless steel wire complete the balustrade.
Completion Date:	2012
