

# Ochil View - Fife

John Gilbert Architects - Fife Special Housing Association

## Project Information

- Type of Building: 3 storey apartment block.  
Glazing System: System 1000  
Quantity: 27 enclosed balconies with elements on front and side elevation.  
Construction: A new balcony was constructed to extend the floor plan; additional steelwork supports the new structure. The lower section is fitted with opal laminated safety glass. The upper section utilises frameless sliding & folding clear toughened safety glass to the front elevation with a side hung open inwards unit to the side elevation. The design is complete with the fitting of an external handrail at 1100mm.  
Completion Date: 2000
